

DERMAL AESTHETICS PRODUCT LIST

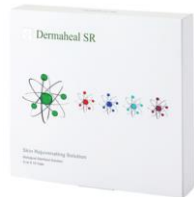

SN	TOXIN		
1	BIENOX 100U		Bienox toxin type A, which temporarily reduces or disappears moderate to severe wrinkles in adult patients. It gives the face a more relaxed and smooth appearance.
2	BOTOX ALLERGAN 100U		BOTOX® is medicine that is injected into muscles and used to temporarily improve the look of moderate to severe forehead lines, crow's feet lines, and frown lines between the eyebrows in adults.
3	BOTULAX 100U		Botulinum Toxin Type A that you inject into facial muscles to help diminish the appearance of wrinkles and fine line.
4	DYSPORT 500U		Dysport is a medicine used to treat the symptoms of Cervical Dystonia, Glabellar Lines and Spasticity. Dysport may be used alone or with other medications.
5	NABOTA 100U		Nabota is indicated for the temporary improvement in the appearance of upper facial rhytides (glabellar lines, crow's feet and forehead lines) in adults. Nabota is a substance used in the injection face. Restructuring face removal Fine lines, wrinkles, crow's feet Facial Wrinkles.

6	 <p>NEURONOX 100U</p>		<p>Neuronox 100IU Injection is used in the treatment of overactive bladder, cervical dystonia, muscle spasm, and to prevent migraine. It treats muscle stiffness in the elbow, wrist, fingers, ankle, and toe muscles in adults. It also reduces the symptoms of severe underarm sweating.</p>
7	<p>NEUROXIN 100U</p>		<p>Neuroxin is indicated for the temporary improvement in the appearance of upper facial rhytides (glabellar lines, crow's feet and forehead lines) in adults. Neuroxin is a substance used in the injection face. Restructuring face removal Fine lines, wrinkles, crow's feet Facial Wrinkles.</p>
8	 <p>NEXTOXIN 100U</p>		<p>Nextoxin 100 Units stands out in the market due to its superior formulation, which balances efficacy and safety. Whether you are treating cosmetic concerns or addressing medical conditions, Nextoxin delivers outstanding results, helping patients achieve their desired outcomes with confidence.</p>
9	<p>ONETOX 100U</p>		<p>One Tox is a Clostridium Toxin Type A, which temporarily improves glabella wrinkles.</p>
10	<p>RE N TOX 100U</p>		<p>Re N Tox - type A botulinum toxin, which is used to smooth out severe wrinkles and folds. The action of the product is based on the local relaxation of spasmodic muscles. Re N Tox has a lower diffusion compared to similar products, which allows you to affect local areas of the skin.</p>

11	 <p>XEOMIN 100U</p>		<p>Xeomin is a popular injectable treatment used for both cosmetic and therapeutic purposes. Xeomin contains incobotulinumtoxinA, a type of botulinum toxin that is derived from bacteria. Xeomin works by blocking the nerve signals that cause muscle contractions, resulting in a reduction in wrinkles and fine lines on the face. Xeomin injections are a popular choice for individuals seeking cosmetic treatments to reduce wrinkles and fine lines.</p>
SN	BODY FILLER		
12	BONETTA FOR BODY		<p>Bonetta body filler is a soft type of body filler made by the manufacturers of Elasty Fillers. The product is great for contouring of body areas where the skin is most sensitive. Correction of the shape and volume of the breast.</p>
13	DEVERRA IRIS 10ML		<p>Deverra Iris is a high-quality hyaluronic acid filler. Hyaluronic Acid promotes skin hydration and keeps your skin moisturized and radiant.</p>
14	DEVERRA HA BODY LIDO 100ML		<p>Deverra 100 with Lidocaine, use for body contouring.</p>
15	GANA HA BODY		<p>This Hyaluronic acid product is an advanced method for body contouring, breast and buttocks augmentation. It is characterized by much longer effect, better and more natural results then comparable products even from the top brands on the market.</p>
16	GLAM FILL		<p>Premium Body Filler, advanced monophasic pure non-animal HA body filler developed by the unique and patented stabilization technique PNET with long-lasting effect for non-surgical correction of body shape.</p>

17	HYACORP MLF1		HYAcorp MLF1 is an absorbable skin implant with a high level of purity. It is a medical device intended for single use only and is produced from a hyaluronic acid of non-animal origin. HYAcorp MLF1 is specially designed for the body contouring and shaping.
18	HYACORP MLF2		Intended to be used as a means of restoring lost volume and contouring body surfaces. The depth of the injection can vary depending on the treatment site, the subcutaneous application and the supraperiosteal application. A greater augmentation of volume can be achieved with HYAcorp MLF2.
19	 NEW PRODUCT MAXYFILL HARD 50CC		MAXYFILL HARD 50CC is a pre-filled syringe containing Hyaluronic Acid (HA) at a concentration of 20mg/CC. This product is specifically designed for body contouring and tissue augmentation, making it an ideal choice for aesthetic procedures aimed at enhancing body shape and volume.
20	MAXYFILL 70CC		MAXY FILL is a Hyaluronic acid body filler used for tissue augmentation. It is recommended to be used for shaping the contours of the body and for the correction of folds and mid and/or deep depression of the skin. It should be injected into the deep layer of the dermis and/or the surface layer of the subcutis.
21	SEDY FILL		Sedy Fill are injectable dermal fillers for non-surgical correction of body shape. The uniqueness of the product composition is based on the presence of cross-linked hyaluronic acid produced by innovative HENM technology. In such form the products possess optimal viscosity and cohesiveness and perfectly correct the skin surface acting locally without any side effects on the adjacent tissues
SN	HAIR FILLER		
22	DR.CYJ 2 x 1ml		This peptide-hyaluronic acid treatment ensures in many cases for the reversal of the hair loss process and at the same time revitalizes the scalp and hair follicles to stimulate hair regrowth. The formula of patented peptides and hyaluronic acid strengthens the hair into the hair follicles, leading according to clinical research to more, thicker and stronger hair.

SN	SKIN BOOSTER / MESO / CELL REJUVENATION		
23	AQUASHINE BR 2x2ml		REVOFIL Aquashine BR filler is injected into the mid-to-deep dermal layer at the site of the cutaneous depression in need of implantation for the treatment of subcutaneous tissue damage caused by chemical, physical and traumatic effects like facial wrinkles, folds or nasolabial folds and to restore the shape of the face. Aquashine BR is a skin rejuvenating and anti-pigmentation mesotherapy product composed of bioactive ingredients including hyaluronic acid, multi-vitamin and amino acids. Aquashine BR is a skin brightening gel which also reduces lines, whilst increasing elasticity.
24	ASCE plus Derma Signal Kit SRLV S		Contains Leucine and hyaluronic acid as active ingredients. The Leucine in this product helps boost natural collagen production by skin cells which helps slow skin aging, making the skin appear younger and more vibrant. It also rejuvenates the skin, giving it a fuller appearance. It also rejuvenates and repairs skin tissue through its anti-inflammatory cytokines and Vitamin C component, making the skin healthier and firmer.
25	ASCE plus Scalp Care HRLV		It promotes the anagen phase of hair through its 1008 different kinds of proteins and growth factors to stimulate regrowth. It contains 598 kinds of MiRNAs that induce anti-inflammatory effects on the scalp. It reduces the cellular senescence of dermal papilla cells and promotes dermal papilla cell proliferation.
26	BIOREPEEL CL3 BODY (3x12ml)		BioRePeelCl3 BODY is an innovative biphasic, medical device with the biostimulating, revitalising and peeling actions indicated for the entire body with a 50% concentration of TCA as the main ingredient.
27	BIOREPEEL CL3 FND (5x6ml)		BioRePeelCl3 FND is an innovative biphasic, medical device with the biostimulating, revitalising and peeling actions indicated for the face, neck, décolletage and the delicate intimate area with a 35% concentration of TCA as the main ingredient.
28	CROMA PhilArt EYE		PhilArt Eye product from CROMA Laboratories is a skin booster from the new PhilArt range, designed to reshape, plump and moisturize the eye contour. PhilArt Eye is recommended to correct and soften the signs of aging around the eyes such as fine lines and wrinkles. It restores youthfulness to your appearance and gives the skin suppleness and elasticity. Thanks to its ingredients and PN-HPT technology, PhilArt Eye stimulates cell regeneration, giving your skin more robust, hydrated and supple cells. This skin booster can also be used to correct superficial facial wrinkles.

29	DERMAHEAL HL (5×10 vials)		Dermaheal HL is Alopecia in men and women, focal and diffuse alopecia Intensive hair loss due to hormonal disruptions, consequences of UV ray negative effects, regular dyeing, discoloration and waving, medication or an unbalanced diet, and stress sustained Excessive dryness of the scalp.
30	DERMAHEAL HSR (5×10 vials)		Dermaheal HSR is a solution with the purpose of skin rejuvenation of dehydrated skin which includes an anti-wrinkle and moisturising. It contains 1% (10mg/g) HA. Dermaheal HSR also binds 1000 times its own weight in water which enables it the ability to ensure the re-hydration and plumping of the dermis.
31	DERMAHEAL SB (5×10 vials)		Dermaheal SB is a skin brightening solution and anti-pigmentation treatment containing dynamic ingredients to fix and resolve skin discoloration.
32	DERMALHEAL SR (5×10 vials)		Dermaheal SR is an anti-wrinkle/anti-aging solution designed for skin rejuvenation by means of injected stem cells. It contains a mixture of peptides and growth hormones
33	EJAL 40		Ejal 40 is a bio-revitalizing treatment used to restore the physiological functions of the skin and improve skin density by restructuring the extracellular matrix. Thanks to the stimulation of fibroblast activity and the creation of new collagen and elastin fibers, Ejal 40 helps to firm sagging skin, reduce wrinkles and restore the lost contour of the face.
34	EXO ONE		Pure Exo, complexes containing RNA and various regeneration-related proteins

35	FILMED NCTF 135HA		Hyaluronic acid-based solution, and is intended for use in biological rejuvenation, revitalising mesotherapy, and the hydration of tired, old skin. It also works for flattening and smoothing out superficial wrinkles.
36	 GLUTANEX AHA BHA LHA		High concentrations of Growth Factors and Peptides, Skin immunity and anti-microbial effect, Keeps skin healthy without irritation, Wound healing and cell proliferation effect. IntoCell-Growth Factors Growth Factors that are super permeable to skin. Biomimetic Peptides Functional Food for Skin. Growth Factors Naturally Repairs Damaged Skin. AHA, BHA, LHA Gentle exfoliation.
37	 GLUTANEX GLOW		Glutanex Glow is a professional solution for instant brightening, instant tone brightening, pore tightening, and skin regeneration. The combination of Glutathione and PDRN brings up a healthy glow from the inner layers of the skin. A combination of the most powerful agents that rejuvenate and strengthen skin barriers to maintain healthy skin. It is a line from the Glutanex series, which helps restore skin conditions quickly through the use of a compound of amino acids, vitamins and minerals that are vital for cell survival.
38	 GLUTATHIONE 600MG		Glutathione (Reduced), Glutathione is also a strong depigmenting agent; it is considered the safest and most effective substance for skin whitening. Guthione injections have a positive effect on the whole body: they improve liver function and accelerate toxin elimination.
39	HYARON		Hyaron is a proven and effective mesotherapy product that also acts as a dermal filler. Its main active ingredient is sodium hyaluronate, which combines the regenerating effect of mesotherapy with the wrinkle removal capabilities of traditional fillers. Unlike hyaluronic acid fillers, Hyaron's texture is smooth and contains much smaller particles
40	 JALUPRO CLASSIC		Jalupro is an injectable solution that has been formulated using a clever combination of amino acids. Technically labelled as a 'dermal biorevitalizer', it improves skin texture whilst diminishing wrinkles. Fibroblasts produce collagen and repair skin to ensure it always has elasticity and great looking texture. As skin ages, the fibroblasts function reduces in activity; this can be caused by many factors, including spending too much time in the sun, intense smoking and other reasons. Consequently, wrinkles appear.

41	JALUPRO HMW		Jalupro is a sterile reabsorbable injectable solution which acts – as dermal biorevitalizer which can be used for the treatment of skin defects and depressions caused by wrinkles and scars.
42	JALUPRO SUPER HYDRO		Jalupro Super Hydro can be considered as one of the most powerful skin boosters on the market. Treats severe dehydration and tired dull skin. Besides, Jalupro Super Hydro gives a lifting effect.
43	JALUPRO YOUNG EYE		Jalupro Young Eye is a product designed specifically to meet the challenges of delicate skin around the eyes. To give of this process, defined by biorevitalization, detailed scientific studies have shown that the amino acids (Glycine, L-proline, L-lysine, L-leucine) and hyaluronic acid combination is a starter of excellence.
44	JUVEDERM VOLITE		It has been studied to provide a biorevitalizing action in areas where the skin is very marked (ruts, depressions and deep wrinkles).
45	KARISMA RH COLLAGEN FACE		A bio-restitutive soft filler that induces natural restoration of pre-aging conditions, by promoting the production of type I collagen in human fibroblasts. Cellular stimulation promoted by KARISMA FACE Rh Collagen® restores firmness and structure to the skin, with a gradual, visible and lasting improvement.
46	KIARAREJU (PDRN)		Kiara Reju contains salmon-derived PDRN, Polydeoxyribonucleotide, which is a naturally occurring building block in your DNA that helps repair damaged skin cells and stimulates collagen production. PDRN helps promote the proliferation of growth factors, activates skin cell circulation, and regenerates wounded skin for elastic and rejuvenated skin. Kiara Reju also contains Hyaluronic Acid to provide the skin with advanced hydration and Niacinamide to brighten and even out the complexion.

47	LAENNEC		Laennec is the ethical drug manufactured with JBP's unique technologies for effective extraction of variety of growth factors, cytokines, and other physiologically active substances from the human placenta. For instance, HGF (hepatocyte growth factor) promotes the proliferation of hepatic parenchymal cells for recovery of a damaged liver
48	LEMON BOTTLE SKIN BOOSTER		Lemon Bottle Skin Booster – 11 high-content amino acids, multivitamins, multi-peptides, and antioxidants required for skin cells with HA to provide them directly to the skin, engaging in the new production of collagen and elastin and supplying nutrients needed for the skin.
49	 LUMI EYES		Lumi Eyes is a tissue stimulator designed for needle mesotherapy treatments around the eyes and the tear valley with a filling effect, but with no side effects in the form of lymphoedema. Lumi Eyes is a high-quality product that repairs damage to the dermis with polynucleotides with a strong tissue regenerating effect . The effect of the treatment is strong hydration and rejuvenation of the tissue, as well as the reduction of symptoms of fatigue and skin blueing.
50	MELSMON		Melsmon helps correct skin imperfections like acne scars and other skin conditions. This treatment contains over 100 active substances, including amino acids, mucopolysaccharides, enzymes, minerals, vitamins, etc.
51	 MESO EYE C71		Meso Eye C71 is a unique development of the biotechnology company ABG LAB LLC (USA), which is able to solve almost all problems and solve non-aesthetic effects in the eye area in just a few procedures. The eye serum has the form of a gel containing in the composition hyaluronic acid, vitamins, amino acids, oligopeptides and the like. These natural active substances, creating a super-effective cocktail, eliminate many disadvantages and problems of the periorbital zone.
52	MESOHEAL AMBER GLOW		It is a powerful blend of cutting-edge ingredients that work together to rejuvenate, revitalize & reduce the signs of ageing. Succinic Acid, the main ingredient of MesoHeal Amber Glow is a potent antioxidant that helps protect the skin from environmental stressors, such as pollution & UV radiation.

53	MESOHEAL ORCHID GLOW		An advanced creation from Koru Pharma. This sophisticated formulation boasts exceptional hydrating properties, visibly diminishing fine lines and wrinkles, and enhancing overall skin vitality.
54	MESOHEAL PINK GLOW		Mesoheal PINK GLOW is an advanced whitening cocktail indicated to lighten hyperpigmented areas of the skin and prevent the formation of new imperfections on the face and body. The boost in collagen and elastin helps retain the skin's dermal structure which results in a reduction of the look of fine lines and the prevention of new wrinkles.
55	 NAD+		NAD+ (nicotinamide adenine dinucleotide) therapy has taken wellness circles by storm for its astounding regenerative and anti-aging effects.
56	NEUAVIA HYDRO DELUXE		Linear HA filler from a combination of Hyaluronic acid and CaHA designed for superficial use to significantly enhance skin hydration and quality and simultaneously promote skin homeostasis for skin rejuvenation.
57	NITHYA FACE COLLAGEN		Nithya (formerly Linerase) is natural and 100% hypoallergenic. When administered by an experienced practitioner, there are no side effects apart from temporary erythema (redness) and edema (swelling). Used in combination with a local anaesthetic such as lidocaine, the procedure is virtually painless and well tolerated.
58	NUCLEOFILL 25		Professional sterile sodium DNA-based gel with hydrating properties, specifically indicated for mature skin. Aims to provide protection, nutrition, hydration and renewal to enhance skin quality and rejuvenation. Nucleofill 25 is designed to improve skin elasticity and tightness as well as aid in the prevention of wrinkles.

59	 <p>NUCLEOFILL EYES</p>		<p>The new bio-restructuring gel of the Nucleofill range based on highly purified low molecular weight polynucleotides of natural origin, specifically created to improve the periocular area. Nucleofill Eyes with highly purified polynucleotide matrix capable of activating the skin's bio-regeneration processes both deep down (fat and bone tissue) and in the dermis (fibroblast stimulation).</p>
60	<p>PROFILO H+L</p>		<p>Profilo H+L is a stabilised hyaluronic acid based product intended for skin remodelling and treating skin laxity, not just for filling lines and wrinkles. Profilo H+L is to be used in areas affected by skin laxity such as the malar and submalar areas of the face.</p>
61	<p>PROFILO STRUCTURA</p>		<p>Profilo Structura is primarily used for the face because it reconstructs and reorients the fat in the area to reverse the loss of volume and facial bone support due to aging. It can be used on the forehead, temple, around the eyes, and cheek regions. The treatment is as natural as possible and has the positive visual effects similar to crosslinked dermal fillers.</p>
62	<p>PRX-T33 TCA</p>		<p>PRX-T33 TCA painless chemical skin rejuvenation and bio-revitalisation treatment to stimulate collagen and elastin. The PRX-T33 treatment has virtually no downtime, no recovery period and is effective at tackling a range of common skin concerns.</p>
63	<p>REJURAN NEW HEALER</p>		<p>Rejuran Healer repairs and rejuvenates aging or damaged skin. Unlike hyaluronic acid skinboosters, Rejuran Healer consists of biologically active molecules that stimulates regenerative processes and reduce inflammation. Rejuran Healer is a unique and innovative treatment, and the most recent addition to skin rejuvenation toolbox.</p>
64	<p>SHEEREYES PN</p>		<p>SHEEREYES is a high-quality tissue simulator with PN (polynucleotide: PDRN) as it's main ingredient. PN is extracted and purified from salmon, which has the most similar DNA sequence, and is safe to use on sensitive skin with no side effects. Moreover, SHEEREYES is effective in helping to reduce wrinkles around the eyes, improving bags and increasing elasticity under the eyes. You will notice various benefits such as skin regeneration and dark circles improvement.</p>

65	SUNEKOS PERFORMA		It is composed of low molecular weight HA and the patented cluster of Amino Acids (AA), the HY6AA formula, in a new premixed composition, thanks to an innovative production process, are allowing a significant improvement in terms of efficacy. Sunekos Performa can also be used to treat periocular area, neck, décolleté and hands upon specific training with qualified personnel
66	 NEW PRODUCT TWAC 2.0 (3ML)		TwAc 3.0 Booster System is an intensively moisturizing preparation that improves skin elasticity and tension and evens out the skin tone. The product additionally prolongs the action of fillers. The effects are visible after the first treatment. The PDRN contained in the preparation stimulates the process of epidermal reconstruction, accelerates scarring and re-epithelialization, and stimulates the metabolic activity of the skin, making the skin moisturized, smooth and taut.
67	 NEW PRODUCT TWAC 3.0 (3ML)		TwAc 3.0 Booster System is an intensively moisturizing preparation that improves skin elasticity and tension and evens out the skin tone. The product additionally prolongs the action of fillers. The effects are visible after the first treatment. The PDRN contained in the preparation stimulates the process of epidermal reconstruction, accelerates scarring and re-epithelialization, and stimulates the metabolic activity of the skin, making the skin moisturized, smooth and taut.
68	 NEW PRODUCT TWAC EYES		TwAc Eyes is an innovative mesotherapeutic preparation based on hyaluronic acid and polynucleotides (PDRN), which supports the regeneration and repair of the delicate skin around the eyes, lips, neck and décolleté. With a PDRN concentration of 2 mg/ml, TwAc Eyes stimulates repair processes, accelerates healing, increases hydration and reduces inflammation, offering full biocompatibility and hypoallergenicity.
69	 NEW PRODUCT XELA DERM 1.1%		Product based on non-cross linked hyaluronic and succinic acid for achieving Redermalization This product is intended to prevent skin aging and eliminate tired face syndrome. Xela Rederm imbues the skin with moisture, mechanically contributes to stimulate proliferation of fibroblasts, and improves skin elasticity and firmness.
SN	NUMBING CREAM		
70	MUCHCAIN CREAM 10.56%		Lidocaine Cream is specially formulated to provide long-lasting pain relief and adequate local anesthesia for various cosmetic or dermatologic procedures. It is easy to apply, shows high clinical effectiveness over short periods, affects intact skin without systemic effects, and achieves little pain or discomfort during treatments with minimal to no side effects. Lidocaine Cream 500g Jar is also very economical, as it comes in larger quantities for multiple applications or sessions.

71	SM CREAM 10.56%		Universal lidocaine cream SM lido Cream 10.56% (30g) ideally eliminates pain during cosmetological minimally invasive, laser and surgical surface interventions. Due to the high percentage of lidocaine in the cream, it is suitable for anesthetizing the skin of even the most sensitive patients.
72	JADE CAINE CREAM		Jade Caine Cream for Local Anesthetic for more comfortable and painless injection.
SN	FAT DISSOLVER		
73	 NEW PRODUCT AQUALYX		Aqualyx fat dissolver is the first non-surgical treatment of local adiposity developed over 20 years ago. The aqueous compound solution within Aqualyx vials can be used to treat multiple areas around the body with stubborn fat pockets, Aqualyx can also be used to treat any small lipomas that appear on the face. The non-invasive treatment is now the preferred alternative to liposuction treatments.
74	LEMON BOTTLE		Effective solution for targeted fat reduction throughout the body. This natural product targets unwanted fat deposits, including double chin, love handles, belly pouches, leg fat, and cheek fullness. The unique formula promotes long-term collagen production, increases skin elasticity, and accelerates fat cell breakdown.
75	LIPOLAB 10 ml x 10 vials		Lipo Lab PPC Solution is a safe and effective fat-resolving product made of high-quality raw materials. Its main ingredient is an extremely purified PPC sodium deoxycholate which can boost metabolism, dissolve fat and increase the patient's energy levels. This reliable fat melter is a more affordable, easier, and time-efficient alternative to other weight management solutions such as surgery, allowing for effective care of the body.
76	 NEW PRODUCT LIPOLAB V-LINE 5 x 10ml		Lipo Lab V-line is a fat-dissolving product that offers better results than liposuction. In contrast to other lipolytic injections, this one destroys fat deposits rather than shrinking them. Also, it is designed to treat the neckline and facial areas such as the jawline, cheeks, and chin. Best of all, this solution has fast yet lasting facial contouring and slimming effects.

77	KABELLINE 8 ml X 5 vials		Kabelline Fat Reduction Solution is a contouring solution that helps to improve the appearance and profile of moderate to severe fat on the body. Kabelline products include the active ingredient synthetic deoxycholic acid
78	SUPER V-LINE SOL 10ml X 10 vials		V-line Sol is an indirect fat dissolver that activates the body's natural process to dissolve fat cells. As a result, it accelerates lymph circulation and helps reduce excess fat in the face. V-line Sol's formula also helps minimize post-procedure swelling. In addition, when injected in the areas around the jaw and chin, V-Line Sol can help slim and tighten the face, giving a face-lifting effect and highlighting the face's v-curve.
SN	FILLER DISSOLVER		
79	LIPORASE		Liporase is a type of enzyme that hydrolyzes hyaluronic acid and is used to dissolve hyaluronic acid dermal fillers that have been placed incorrectly, excessively, or unevenly. Hyaluronidase is also used in emergency situations where filler has been inadvertently injected into an artery, obstructing the blood supply.
SN	FILLER		
80	AESTHEFILL 200 (PLA)		Aesthefill is a facial treatment that provides deep tissue regeneration to reduce the signs of facial aging. AestheFill is based on polylactic acid, which has been successfully used in medicine for over 20 years, and is a completely self-absorbing material that is used to make surgical sutures. After examining the natural properties of the polymer, scientists determined its chemical and physical stability, the lack of protein components that have become a common cause of allergic reactions.
81	ALIAXIN EV		ALIAXIN ESSENTIAL VOLUME: Indicated to restore partial volume deficits, to correct asymmetries and nose imperfections and to obtain a more defined jawline. The outcome of the treatment depends on the type of skin and the nature of the imperfection: the less evident the imperfection, the better the result.
82	ALIAXIN FL		ALIAXIN® FINE LINES & LIPS: Specific product for lip refresh and fine lines treatments. Optimal HA features for a lip gloss effect and for natural redefinition.

83	ALIAXIN GP		Aliaxin GP, “Global Performance”, is ideal for treating the most common facial beauty flaws. Aliaxin GP is ideal to correct wrinkles and more pronounced folds: nasolabial folds, nose, chin, lip augmentation and cheeks. The product may also be used to restore localised volume and for touch-ups.
84	ALIAXIN LV		ALIAXIN® LIPS VOLUME: is a non-invasive HA dermal filler designed to plump, volumize, and enhance the lips, without compromising the natural look of the person. The product has a high level of viscosity, which gives the filler a structure that guarantees a high resistance to mechanical stress and an excellent diffusion in the injected area. Aliaxin LV is also ideal to restore the firmness of the skin.
85	ALIAXIN SR		ALIAXIN® SHAPE & RESTORE: Thanks to a dual action of reshaping and hydration processes, harmonious and uniform facial balance is restored. Indicated for broad areas, as well as facial contour definition.
86	ALIAXIN SV		Treatment designed for restoring facial volume, natural contouring and hydration. The product has an optimal lifting capacity making it ideal for contouring faces, cheekbones and create sharp jawlines. In addition, the product can be used to fill deep lines and wrinkles.
87	AQUASHINE PTX 2x2ml		Aquashine PTX is an innovative anti-age hyaluronic acid filler with biomimetic peptides. The high quality of hyaluronic acid and biomimetic peptides is designed to be safe with no-adverse effect and are biodegradable in the body. Aquashine PTX is ideal to correct moderate to severe facial wrinkles and folds and to restore the shape of the face. The product is an ideal solution for mature skin in treatments for face and tissue remodelling.
88	BELOTERO BALANCE		Belotero Balance is an injection that is approved to temporarily smooth out and fill in moderate to- severe nasolabial folds (the folds or wrinkles that go from the side of the nose to the corner of the mouth).

89	BELOTERO INTENSE		Boletero Intense is a powerful dermal filler designed to address deep wrinkles, severe facial folds, and loss of volume in the face.
90	BELOTERO SOFT		Belotero Soft (without Lidocaine) is an injectable and biodegradable filler indicated for injection into the superficial to medium dermis for the treatment of perioral wrinkles.
91	BELOTERO SOFT LIDO		Belotero® Soft is a formula intended for superficial injection to correct fine lines and wrinkles.
92	BELOTERO VOLUME		Belotero Volume is specially adapted to restore volume in areas of large-scale volume loss. The charge of hyaluronic acid is injected below the surface of the skin to add volume and with that, to smooth out unwanted wrinkles.
93	BONETTA DEEP		Bonetta Filler Deep is a skin filler that adds instant volume under the skin. So, it can provide patients with fuller lips and cheeks in minutes. Also, the product contains cross-linked Hyaluronic Acid that fills even deep wrinkles and folds. Best of all, the structure of the filler gel adapts to that of the skin to ensure long-lasting anti-aging results.
94	BONETTA VOLUME		Bonetta Volume is a stabilized hyaluronic acid- (HA)-based filler provides a long-lasting effect of facial volumization and lip augmentation. High elasticity and low injection force of the HA gel ensure uniform distribution of the filler during injection thus minimizing the risk of gel lumping and post-injection edema. Bonetta Volume is perfect for correction of deep facial folds, lip augmentation, as well as face contouring and volumization. The filler is injected into the deep dermis and subcutaneous tissue.

95	CELOSOME MID		Celosome Mid is used for filling of mid-to-deep facial wrinkles and liquid facelift. The filler is injected into the middle and deep dermis.
96	CELOSOME STRONG		Celosome Strong is ideal for correction of moderately pronounced and deep wrinkles, as well as facial contouring. The filler is injected into the middle and deep dermis.
97	DERMALAX DEEEP		Dermalax Deep Plus is a well-established Hyaluronic Acid filler and it is specifically designed for nasolabial fold and deep wrinkle removal. It has an excellent performance the effect of which remain visible for at least 12 months after the treatment. Aside from skin rejuvenation, this revolutionary medical device can also be used for face contouring and perioral area treatment.
98	DERMALAX IMPLANT		Dermalax Implant Plus is a double package of the thickest filler in the Dermalax line. This Hyaluronic Acid gel is injected in areas such as the cheeks and the chin, to shape and augment the facial features of the patient. A great alternative to traditional plastic surgery, this dermal filler offers a long term facial sculpting solution. Easy to inject, the filler is very stable with no displacement of the gel over time.
99	DEVERRA DEEP		Deverra Deep Lidocaine 2ml, cross linked hyaluronic acid dermal filler used for treatment of deep wrinkles, add volume to lips. Improve lips definition and shape.
100	DEVERRA FINE		Deverra Fine Lidocaine 2ml, cross linked hyaluronic acid dermal filler used for treatment of fine lines around and under eyes.

101	DEVERRA SHAPE		Deverra Shape Lidocaine 2ml, cross linked hyaluronic acid dermal filler used for treatment of deep wrinkles, add volume to cheek, chin, jawline, and face contouring.
102	DEVERRA TOUCH PLUS 10ML		Devarra Touch, with high degree of viscoelasticity level. Use for volume restoration, smoothing and cellulite free skin, zero to minimal incision and scarring and stable moulding strength.
103	DEVERRA VOLUME PLUS		Deverra Volume Plus with Lidocaine is used to treat deep sized wrinkles in the face.
104	ELASTY D PLUS		D plus is a dermal filler with medium viscosity. It efficiently fills in wrinkles and folds on the skin and works well on the deep dermal layers. It has been manufactured by cross-linking 3D technology and it's high volumetric properties enable resistance to biodegradation.
105	ELASTY F PLUS		ELASTY F is a medium viscosity dermal filler. This filler can be used with minimal modification, this dermal filler shows utmost purity when used. It makes this filler a top choice for clients. Its high viscosity guarantees long lasting results and satisfaction by clients.
106	ELASTY G PLUS		G plus is the most dense dermal filler within the product line of this brand. It contains large particles. It effectively fills in the volume of lost skin tissues of different facial areas. During the manufacture of this product there is used technology of cross-linking of hyaluronic acid 3D.

107	EXQUILLER DEEP		Exquiller Deep with Lidocaine is a hyaluronic acid-based booster designed to correct wrinkles of the upper epithelium of the skin and the middle subcutaneous layer. Created using the Hy-BRID technology, which ensures optimal viscoelasticity and a long-lasting effect. Exquiller can correct perioral (purse-string) wrinkles, shallow creases caused by natural facial expressions, as well as wrinkles caused by age-related changes.
108	EXQUILLER FINE		Exquiller Fine is a filler based on hyaluronic acid for the correction of fine lines and first age-related skin changes. The manufacturing technology of the product includes step-by-step polymerization of hyaluronic acid. As a result, the product represents double-phase gel with high degree of purity and optimal density, perfectly suitable for the introduction to the superficial dermal layer. Product injection is carried out with special UTW needles that have wider inner diameter, because of this the filler is introduced uniformly with constant rate.
109	EXQUILLER IMPLANT		Exquiller Implant is a filler for non-surgical correction of nose and chin shape. This product is manufactured by means of ultra-modern Hy-brid technology suggesting step-by-step cross-linking of hyaluronic acid molecules. As a result, there is a gel with a very thick structure perfectly suitable for non-invasive nose and chin augmentation. The additional effect of filler injection will become general enhancement of skin elasticity and moisturizing, since hyaluronic acid binds water very effectively. The feature of the filler is its incredibly high quality: the traces of BDDE and endotoxins are absolutely absent in the product. Since it is manufactured based on natural compound, it is absolutely biocompatible and hypoallergenic.
110	EXQUILLER SUB Q		Exquiller Sub-Q is filler for introduction to the middle and deep dermal layers for correction of deep wrinkles, nasolabial folds and non-surgical change of face oval and chin shape. This filler represents a gel based on hyaluronic acid. Because of the big amount of cross-links between monomers, the product has thick structure and is well-suited for non-invasive correction of face shape as well as flattering of deep folds and wrinkles in the nasolabial folds area and between eyebrows. Besides, the filler might be used for the elimination of marionette lines and general skin rejuvenation. The hyaluronic acid has a natural origin and perfectly binds water, maintaining the skin elasticity and shape. Introduction of given filler will restore face volumes, manage the age-related changes and return youth and tension to the skin.
111	EXQUILLER EX-I HYALU PN TOX		Ex-i: Excellent Eyes. Where Wrinkles Retreat and Beauty Resides. High-concentration ingredients including PN and five growth factors achieve a powerful lifting effect with optimal cell penetration. MTD technology for elastic and healthy skin. Amazing for lifting and reducing wrinkles – around the eyes, neck, cheeks and chin, back of the hands and forehead.
112	JUVEDERM SMILE		Juvéderm Ultra Smile is an injectable hyaluronic acid based dermal filler with lidocaine dedicated to the lips and mouth area. It is used to enhance lip volume, redefine lip shape, treat vertical lip lines and depressions at the corners of the mouth.

113	JUVEDERM ULTRA 2		Use this product for correcting minor wrinkles in the upper surface area of the skin dermis. Also use for defining lip shape and volume. The gel containing lidocaine can be administered without any pain due to its smooth consistency.
114	JUVEDERM ULTRA 3		Ultra 3 is a hyaluronic acid filler with a smooth and long-lasting formulation. It is primarily used to fill moderate to deeper facial wrinkles that occur around the nose and the mouth: nasolabial folds and marionette lines. In addition, can also be used to enhance lip contour and lip volume as well as for the filling of the acne scars.
115	JUVEDERM ULTRA 4		Juvederm ULTRA 4 is indicated for the filling of deep skin depressions (wrinkles) and for increasing the volume of the lips and cheekbones. It is injected into the deep dermis and will restore the volumes of the face. It will deeply moisturize the skin. The presence of lidocaine is aimed at reducing the painful sensation of the patient in the face. The result of the treatment has a “regenerative” ability, it gives the effect of a younger and smoother skin.
116	JUVEDERM VOLBELLA		Volbella is specially designed to be used on the lips to restore lip volume and contour lip shape. Unlike others, Volbella has a thinner and more pliable texture that allows the filler to create silky-smooth, utterly soft, and completely natural results. This filler is commonly used to correct lip-related concerns such as:
117	JUVEDERM VOLIFT		VOLIFT contains hyaluronic acid which is naturally found in our skin and is responsible for plumping, hydrating and firming. Smoothing nose to mouth lines and folds. Treating marionette lines and wrinkles, the mouth and jowls Lifting and reshaping the brows. In combination with Botox anti wrinkle injections to lift, redefine and rejuvenate the face through liquid facelift
118	JUVEDERM VOLITE		Dermal filler product that is used to improve skin quality, skin hydration and skin elasticity, with studies confirming these benefits. Duration of effect after a single treatment is up to 6 months, when treatment can be repeated for continued benefit.

119	JUVEDERM VOLUMA		Juvederm Voluma is a dermal filler designed to add volume to the skin in areas that have lost volume as a result of aging. It's made from hyaluronic acid and is generally used to enhance the appearance of areas such as the cheeks, chin, and jawline. It is also sometimes used to augment other areas such as the lips or nose. This filler is highly effective at restoring volume and adding definition to the facial contours.
120	JUVEDERM VOLUX		Juvederm Volux contains rejuvenating hyaluronic acid, and its unique consistency makes it perfect for sculpting a precise jawline shape. Juvederm Volux is injected under the skin, gently contouring your jawline to perfection – no surgery required. The filler's consistency is perfect for defining weak features and adding firmness to sagging areas.
121	 NEW PRODUCT LEXYAL DEEP		LEXYAL DEEP is a crosslinked hyaluronic acid filler specifically designed for mid-to-deep dermal implantation. It is primarily intended for the correction of facial wrinkles, enhancement of facial contours, and restoration of volume in various areas of the face. The product is characterized by its high elastic modulus and excellent cohesion, which contribute to its effectiveness in aesthetic applications.
122	 NEW PRODUCT LEXYAL FINE		LEXYAL FINE is a cutting-edge dermal filler that utilizes crosslinked hyaluronic acid technology. It is specifically designed for mid-to-deep dermal implantation, making it suitable for correcting facial wrinkles, enhancing contours, and restoring volume in various areas of the face. The product is characterized by its high elastic modulus and excellent cohesion, which contribute to its effectiveness in aesthetic
123	 NEW PRODUCT LEXYAL GRAND		LEXYAL SOFT is a type of dermal filler that utilizes crosslinked hyaluronic acid, designed for mid-to-deep dermal implantation. Its primary purpose is to correct facial wrinkles, enhance contours, and add volume to various areas of the face.
124	MIFILL VOLUME		MiFill is a unique technology of hyaluronic acid cross-linking, which is based on several stages of this process. In addition to the basic process using a cross-linking agent, there are two more phases that produce hyaluronic acid microcapsules, making it much smaller in molecular size than traditional fillers (monophasic and biphasic)

125	NEAUVIA INTENSE		Suitable especially to deep filling of skin depression (included deep wrinkles and nasolabial folds), cheeks, chin and nose modelling, face contouring, in moderate and strongly aged skin. LV (LIGHT VISCOSITY) for easier injections.
126	NEAUVIA INTENSE LIPS		Neauvia Intense Lips is ideal for enlarging, contouring and revitalizing lips. Intense Lips users can count on its highest quality, achieved through the use of the safest materials available in the production process (BSHA and PEG) and the advanced IPN technology, which is responsible for the unusual properties of the hydrogel.
127	 NEW PRODUCT NEAUVIA INTENSE RHEOLOGY		Neauvia Organic Intense Rheology is a product of the Swiss laboratory Neauvia, specialised in aesthetic medicine. This product can help correct the first signs of ageing, expression lines and superficial wrinkles, especially in young skin. Neauvia Organic Intense Rheology also aids in lip correction and contouring, and hand rejuvenation, as well as acne scarring.
128	NEAUVIA STIMULATE		Structurally filler from a combination of Hyaluronic Acid and CaHA that adds volume. Integrates easily into the tissue allowing for natural look and simultaneously promotes skin homeostasis and, at the same time, is reversible.
129	NEURAMIS LIDOCAINE		Neuramis Lidocaine is a proven filler with hyaluronic acid, intended for filling in deep and fixed wrinkles. It allows you to quickly level fixed furrows, and can also be used to increase the volume of the skin and its rejuvenation.
130	NEURAMIS DEEP LIDO		Neuramis Deep with Lido is used in contour plastics for the correction of deep uneven areas on the skin and areas on the face, lips, neck, chest and hands. Neuramis Deep Lido dermal fillers have medium viscosity

131	<p>NEURAMIS VOLUME LIDO</p>		<p>Neuramis Volume Lido is specially made to add volume to the regions of your face. It is appropriate for filling in medium-deep to deep skin folds. Furthermore, it is also used for facial contouring</p>
132	<p> NEW PRODUCT</p> <p>OLIDIA PLLA</p>		<p>Olidia 365mg High Cincetration Injectable Dermal Filler Anti Wrinkles Face Filling Etrebelle Similar Injection. Olidia® is an injectable dermal filler based on poly L-lactic acid. This filler has been developed to fill in the lost volume on the face by stimulating collagenesis. The main ingredient of Olidia® is PLLA. PLLA has been used around the world for over 20 years in medical devices, e.g. for dissolving sutures. As Olidia® is made of synthetic materials, there is no need for allergy testing before the procedure.</p>
133	<p> NEW PRODUCT</p> <p>PLENARIS DEEP</p>		<p>Plenaris Deep is a dermal filler that uses hyaluronic acid (HA) to restore lost facial volume and reduce wrinkles. Made with high-quality, biodegradable, and non-animal HA. Plenaris provides a secure and efficient means of achieving a youthful appearance. Injecting the fillers is simple and comfortable, and the results are long-lasting and increase skin moisture.</p>
134	<p> NEW PRODUCT</p> <p>PLENARIS FINE</p>		<p>Plenaris Fine is a dermal filler that uses hyaluronic acid (HA) to restore lost facial volume and reduce wrinkles. Made with high-quality, biodegradable, and non-animal HA. Plenaris provides a secure and efficient means of achieving a youthful appearance. Injecting the fillers is simple and comfortable, and the results are long-lasting and increase skin moisture.</p>
135	<p> NEW PRODUCT</p> <p>PLENARIS VOLUME</p>		<p>Plenaris Volume is a dermal filler that uses hyaluronic acid (HA) to restore lost facial volume and reduce wrinkles. Made with high-quality, biodegradable, and non-animal HA. Plenaris provides a secure and efficient means of achieving a youthful appearance. Injecting the fillers is simple and comfortable, and the results are long-lasting and increase skin moisture.</p>
136	<p>PROMOITALIA RICH PL</p>		<p>Promoitalia Rich PL is an innovative solution for skin rejuvenation. This highly effective product richly moisturizes the skin and restores volume. It stimulates cell reproduction by activating skin fibroblasts. Based on hyaluronic acid and polylactic acid, it achieves a strong immediate volumizing effect. Rich PL is the perfect choice for correcting skin irregularities such as wrinkles and loss of volume.</p>

137	POLLYFILL (PLA)		Pollyfill is a facial treatment that provides deep tissue regeneration to reduce the signs of facial aging.
138	 POWERFILL 1000MG		PowerFill is a highly efficient and long-lasting filler that is composed of Polylactic acid (PLA). The product is made of hypoallergenic and biodegradable materials, and it is primarily used for increasing volume and correcting the shape of body and intimate zones.
139	RADIESSE		For the correction of facial folds and wrinkles of moderate and severe degree, including nasolabial folds
140	REJENEUSSE DEEP		Rejeunesse Deep with lidocaine is used to correct medium and deep facial imperfections by injecting from the inside into the deep dermis.
141	REJENEUSSE SHAPE		Rejeunesse Shape with lidocaine is used to correct deep facial imperfections through the deep dermis for subcutaneous injection. Rejeunesse Shape scope: repair of deep wrinkles. modeling of the cheeks and cheekbones.
142	REJURAN I		Rejuran I is specifically designed for rejuvenating the skin around eye area.

143	REJURAN S		Rejuran S Acne Scar Treatment is a medical procedure to address acne scars. This treatment involves the use of polynucleotides (PN), which are DNA fragments that help repair damaged cells and stimulate collagen. These regenerative properties serve to promote the healing of damaged skin tissues such as acne scars.
144	RESTYLANE DEFYNE		Defyne is indicated for injection into the mid-to-deep dermis for correction of moderate to severe, deep facial wrinkles and folds (such as nasolabial folds) in patients over the age of 21
145	RESTYLANE KYSSSE		Lip filler that adds volume, smooths upper lip lines for up to one year, and enhances lip color. Designed specifically for the movement of lips, Restylane Kysse is made with XpresHAn Technology's innovative cross-linking gel for precise, natural-looking results.
146	RESTYLANE LIDOCAINE		Restylane 1 ml with lidocaine is a classic rejuvenating formula based on hyaluronic acid. One of its key features is the applicability to areas around the eyes to reduce fine wrinkles, crow's feet and under-eye hollows' volumetry. Another popular indication that Restylane can be successfully applied is face augmentation. The preparation binds with water to plump up to a thousand times its size, instantly adding volume to skin that has become hollow, sagging, and less elastic with age.
147	RESTYLANE LYFT		Adding lift to cheeks, smoothing smile lines, and adding volume to the backs of hands
148	RESTYLANE REFYNE		Refyne is indicated for injection into the mid-to-deep dermis for correction of moderate to severe facial wrinkles and folds (such as nasolabial folds) in patients over the age of 21. of anaphylaxis or history or presence of multiple severe allergies.

149	RESTYLANE VITAL		Restylane Skinboosters is a revolutionary method to nourish and hydrate the skin without the need for downtime. Restylane Skinboosters treatment, which consist of Restylane Vital and Vital Light formulations, are two of the newest in Galderma's Restylane product family, and are applied via microinjections to the skin in order to improve the skin hydration, elasticity, and overall skin quality.
150	RESTYLANE VITAL LIGHT		Restylane Skinboosters Vital with Lidocaine is injectable dermal filler, transparent gel of stabilized hyaluronic acid intended to restore skin hydrobalance, improve skin structure and the elasticity of the skin. The addition of lidocaine provides increased overall treatment comfort.
151	RESTYLANE VOLYME		Volyme is placed deep under the skin to produce contour changes of the jaw, chin, and cheeks in order to restore a more youthful appearance.
152	REVOLAX DEEP 1x1.1ml		Revolax Deep with Lidocaine is a thick and longer-lasting gel, developed for the treatment of deep wrinkles. Ideal for the treatment of the nasolabial folds, non-surgical rhinoplasty, augmentation of the cheeks, chin, and lips
153	REVOLAX SUBQ 1x1.1ml		Revolax SUB-Q lidocaine is an injectable hyaluronic acid with the thickest properties in the Revolax product range. Due to its advanced ability to shape, maintain its structure and longevity, it is recommended for the treatment of deep to severe wrinkles, including nasolabial and facial contours (cheek, chin or nose)
154	REVOLAX FINE 1x1.1ml		REVOLAX Fine With Lidocaine is a lightweight and high-viscoelasticity dermal filler. It is developed for the treatment of superficial lines, including crow's feet, glabellar lines, and neck wrinkles for a flawless result. Upon treatment, REVOLAX Fine quickly absorbs into the skin creating a very natural and healthy look to the injected area - improving overall appearance.

155	RICHELSE PLA		Richesse PLA is a long-term and Neo Collagenesis (promote collagen creation) filler that lasts more than a year and a half, which slowly fills the skin with collagen to maintain a natural volume.
156	RICHELSE RED VOLUME NO. 07		Richesse Red Volume No.7, Original manufacturing technology. High molecular + low molecular cross-linked HA26mg HA concentrationVitamin B12
157	RRS LONG LASTING		This filler is a biorevitalising product that uses highly concentrated cross-linked hyaluronic acid to specifically improve the skin's condition in many ways. In RRS HA Long Lasting, the hyaluronic acid is combined with amino acids and antioxidants to enable an even better result for the skin's appearance. The hyaluronic acid contained in RRS HA Long Lasting is of non-animal origin and therefore particularly well tolerated.
158	RRS HA EYES		A skin booster is an injectable that consists of a base of hyaluronic acid supplemented with active ingredients such as vitamins, minerals, antioxidants and peptides. This combination will nourish, repair and partially plump the skin. This will soften your wrinkles, slow down the aging process and give the skin a healthy glow. A skin booster provides a "whitening effect," that is, it lightens the skin under the eyes by suppressing pigmentation.
159	SARDENYA DEEP		Recommended for the correction of moderate facial defects through deep injection into the dermis. It is characterized by medium elasticity. Its purpose is to combat defects of moderate severity, which can be found in most areas of the face and body. Using this filler, nasolabial folds are filled, contours are reinforced, lips are modeled. Injections are performed in the deep layer of the dermis.
160	SARDENYA SHAPE		It contains large particles that help to postpone the natural aging process, smooth wrinkles and eliminate dryness of the skin and giving it a fresh and youthful appearance. It is used to smooth and fill deep wrinkles all over the face and create beautiful contours in the nose, chin, cheekbones and face contour. The average grain size of Sardenya Shape is large, making it ideal for deep wrinkles such as those on the forehead and to add volume to the cheeks.

161	STYLAGE S BISOFIT LIDO		Stylage S Bi-SOFT with lidocaine, you can perfectly counteract the light facial wrinkles, especially in thin skin areas. Optimal for skin areas where the first ageing processes are quickly visible, such as the face, hand and neck area, Stylage S Bi-SOFT with lidocaine restores a natural and fresh shine.
162	STYLAGE M BISOFIT		With Stylage M Bi-SOFT you can perfectly counteract the light to medium deep wrinkles. More precisely, medium deep nasolabial folds, as well as wrinkles and forehead wrinkles can be filled. In addition, Stylage M Bi-SOFT optimally corrects a slack chin area and gives your cheeks and lips a beautiful contour. In addition, the Hyaluron Filler can be used to make hand rejuvenations, but also earlobe and nose corrections.
163	STYLAGE M BISOFIT LIDO		Stylage M Bi-SOFT with lidocaine, you can perfectly counteract light to medium deep wrinkles. More precisely, medium deep nasolabial folds, as well as crow's feet and forehead wrinkles can be filled. In addition, Stylage M Bi-SOFT with lidocaine optimally corrects a sagging chin area and gives your cheeks and lips a beautiful contour. In addition, the Hyaluron Filler can be used to make hand rejuvenations, but also earlobe and nose corrections. Furthermore, the product contains 0.9% mannitol, an antioxidant which slows down the natural breakdown of hyaluron.
164	STYLAGE L BISOFIT LIDO		With Stylage L Bi-SOFT with lidocaine you can perfectly counteract medium to very deep wrinkles and prevent loss of volume. More precisely, you can optimally smooth out especially deep nasolabial wrinkles, as well as cheek wrinkles and frown lines by injecting them. In addition, Stylage L Bi-SOFT with lidocaine optimally corrects a sagging chin area and gives your cheeks and lip corners a beautiful contour.
165	STYLAGE XL BISOFIT LIDO		With Stylage XL Bi-SOFT with lidocaine you can fill wrinkles in your face and at the same time build up volume perfectly. Thus a natural facelift takes place. Only one wrinkle treatment is enough to fill and model the chin and cheek area and to give your face a natural look. As a result, flaccid skin can be restored to elasticity and firmness, thus tightening the skin.
166	SCULPTRA (PLLC)		Sculptra is a collagen stimulator that helps to repair the underlying structure of the skin. This adds fullness to the face and diminishes the appearance of any wrinkles and fine lines. Sculptra is most commonly injected to reduce the appearance of smile lines, marionette lines, and wrinkles around the chin.

167	TEOSYAL KISS		Teosyal Kiss is indicated for the enhancement of the lips. This dermal filler may be used to add to the lips' overall fullness and volume, reshape them, and hydrate them. Additionally, it may be used to treat wrinkles and lines at the corners of the mouth.
168	TEOSYAL REDENSITY 1		Teosyal PureSense Redensity 1 is a unique Hyaluronic Acid that hydrates and repairs the skin – a new concept known as Skin Booster. Teosyal Redensity 1 is non cross-linked Hyaluronic Acid that includes a unique patented formula of effective natural components.
169	TEOSYAL REDENSITY 2		Teosyal Puresense Redensity 2 is one of the most effective products against dark circles and signs of ageing. Available in the form of a viscoelastic gel, this product contains hyaluronic acid and has no animal origin. Puresense Redensity 2 corrects dark circles, blemishes and restores the volume of the face. The Puresense Redensity 2 is recommended to ensure elasticity and prevent skin dehydration. The Teosyal patented formula is suitable for all skin types, even the most sensitive ones.
170	TEOSYAL RHA3		For the treatment of deep wrinkles on the face such as nasolabial folds, vertical lip lines, deep lines and creases, cheek augmentation and to restore the shape of the face.
171	TEOSYAL RHA4		TEOSYAL RHA 4 is indicated for reshaping facial contours, restoring / increasing volume and correcting minor ptosis, in areas such as the cheeks and cheekbones. It is also indicated for filling deep wrinkles and folds in areas of thick skin, in particular moderate to severe nasolabial folds.
172	TEOSYAL ULTIMATE		With its high viscoelastic profile and cohesivity, this unique filler is recommended for the creation of volume in the cheekbones and chin, the redefining of facial outlines, and the filling of deep wrinkles on thick skin.

173	TEOSYAL ULTRA DEEP		With its high viscoelastic profile and cohesivity, this unique filler is recommended for the creation of volume in the cheekbones and chin, the redefining of facial outlines, and the filling of deep wrinkles on thick skin.
174	YOUTHFILL DEEP		Recommended for the correction of moderate facial defects through deep injection into the dermis. It is characterized by medium elasticity. Its purpose is to combat defects of moderate severity, which can be found in most areas of the face and body. Using this filler, nasolabial folds are filled, contours are reinforced, lips are modeled. Injections are performed in the deep layer of the dermis.
175	YOUTHFILL SHAPE		It contains large particles that help to postpone the natural aging process, smooth wrinkles and eliminate dryness of the skin and giving it a fresh and youthful appearance. It is used to smooth and fill deep wrinkles all over the face and create beautiful contours in the nose, chin, cheekbones and face contour.
